

**THE CORPORATION OF THE TOWN OF ARNPRIOR
NOTICE OF FILING OF ADDENDUM**

**Town of Arnprior
Environmental Study Report Addendum
Water Pollution Control Centre
(Sewage Treatment Facility)**

The Town of Arnprior (Town) is updating the planning process to expand the Town's sewage treatment facility. The Town has identified that the facility is nearing its rated capacity for wastewater flows and treatment, and measures must be taken to ensure adequate capacity exists for future demands and growth in the community. The project is being carried out as a revision to the 1992 Environmental Study Report and 1996 Environmental Study Report Addendum No. 1 under the Terms of the Municipal Class Environmental Assessment (Class EA) process, which is approved under the Environmental Assessment Act.

The Addendum has now been completed and contains details of the revised WPCC expansion upgrades, potential scheduling, and updated opinion of probable costs. The proposed project involves upgrades to the existing Water Pollution Control Centre and relocation of the outfall from the Madawaska River to discharge to the Ottawa River.

By this Notice, the Addendum is being placed on the public record for a thirty-day public review period in accordance with the requirements of the Municipal Class Environmental Assessment. Interested persons may review this document and provide comments to the Town. Subject to comments received as a result of this Notice, funding opportunities, and the receipt of necessary approvals, the Town may proceed with the works. Capital costs are projected to be in the order of \$15.5 million.

The Addendum is available for review August 5, 2008 at the following locations:

COMMENTS

Any information collected during the review period will be managed in accordance with the Freedom of Information and Protection Act. With the exception of personal information, all comments will become part of the public record. If concerns arise regarding the revisions to the original 1992 Environmental Study Report and 1996 Environmental Study Report Addendum No. 1, which cannot be resolved in discussion with the Town, a person or party may request that the Minister of the Environment make an Order for the project to comply with Part II of the Environmental Assessment Act (referred to as a Part II Order), which addresses individual environmental assessments. Requests must be received by the Minister at the address below within 30 calendar days of this Notice (up until and including September 3, 2008). A copy of the request must be sent to the Town's Director of Public Works and Engineering. If no request is received by September 3, 2008, the Town is able to proceed with upgrades as outlined in the Addendum.
